Invitations Issued to Get-to-Gether Meeting

Secretary M. E. Crosby of the Chamber of Commerce has sent out the invitations to the members and citizens announcing the get-to-gether meeting which will be held Thursday evening, February 26, at the Christian Church parlors. The ladies aid of the Christian church will serve the supper. This meeting will be devoted to the discussion of one topic, "Better Street Lighting for North Platte," and the officers of the North Platte Electric company will be the main speakers of the evening. At the January meeting of the Chamber the question of an electric lighting system was taken up by the men, but this meeting will be more general towards bettering the lighting facilities for the city.

Everyone is invited to attend whether members of the organization or not. It is hoped that a large number will take advantage of this opportunity to get together and discuss measures for the betterment of the city. Tickets will be placed on sale at the three banks and they also can be purchased from the secretary. The tickets are only fifty cents and this would barely cover the expense of the sumptuous supper that has been planned by the ladies. The sale of tickets will close Monday night, February 23, in order to give the ladies opportunity to prepare for the crowd expected, and that they may know how many to expect. Everyone is urged to come out and help make this the best meeting the chamber has ever held.

Sues for Loss of Trees.

The case of William Beatty against the Union Pacific company has occupied the time of the district court for a day and a half. Mr. Beatty is suing the company for damages alleged to be due on account of the killing of a number of trees by a fire which it is contended was started by an engine of the defendant. The arguments were made to the jury yesterday afternoon and after consideration it was decided to take the jurors to Brady and allow them to look over the ground where the damages are alleged to have been done. The men went to Brady this morning and will return this afternoon.

His report will be sent to the State Superintendent of Public Instruction for his approval. Mr. Gregory expressed himself as well pleased with the work being done in the North Platte school, and stated that he found things in good shape. He spent a few minutes in the Jefferson School and was very much surprised to find such a fine building, comparing it to the old building which was replaced and which he had visited many times.

Medical Society Makes Answer.

Whereas, Dr. S. Twinem, in a statement over his signature, published in the local papers, accuses an officer of the Lincoln County Medical Society of unethical practice—that is to say, of soliciting his patients by letter. And whereas, the Lincoln County Medical Society in special meeting assembled took cognizance of said accusation and appointed a committee of three members thereof to interview Dr. Twinem and obtain proof of his charges and the name of the alleged offending officer of the said society with a view to discipline said officer for his alleged unethical conduct. And, whereas, Dr. Twinem flatly refused to submit any proof of his allegations or the name of the alleged offending officer of the Lincoln County Medical Society.

Therefore be it resolved, That it is the sense of the members of the Lincoln County Medical Society, in special meeting assembled that the said Dr. J. S. Twinem in shielding himself behind a general statement, to say the least, shows a lamentable lack of moral courage and sense of fair play, by thus leaving the finger of suspicion to point at several members of our society.

NOTICE.

That The People May Know.

As an officer in Lincoln Co. Medical Society and a doctor in one of the North Platte hospitals, do you think it right, justifiable, or ethical, to send out letters (or nurses) soliciting prospective mothers for the lying-in-period? Your society should not tolerate it. Next time we call your attention to this, letters with your name attached will be published when presented at this office. This has been going on for a long time even at the expense and discourtesy to those doctors who have and are sending patients to nourish and maintain such institutions.

Respectfully Yours,
Adv. JOHN S. TWINEM, M. D.
